

## BISBEE HIGH READY FOR THANKSGIVING

Last of the Heavy Practice for Douglas Yesterday Afternoon

The football team of the Bisbee high school had its last rough-and-tumble practice before the Thanksgiving Day game with Douglas yesterday afternoon and this afternoon will be devoted to light work for fear that injury may interfere with the line-up for the Thursday game.

Captain Henry is not yet able to give a line up for the struggle but says there will be some changes in the roster. Both of the ends will be new to that position and a new quarter may go in. All of the changes are transfers however and the line-up will contain no novices.

Several of the players who were hurt in the game with Douglas are in shape again, hardened by the experience. Instead of being buffeted by the defeat at Tucson, the local team believes in its superiority over the Tucson team and believe that the game on December 9, sure, will be a reversal of the first game.

The Bisbee team makes no excuse for its defeat and admits that the victory was fairly won by Tucson but the fact remains that Bisbee could not gain through Bisbee's line, never gained ten yards on consecutive plays. Bisbee on the other hand, was never held for down, gaining at will through Tucson's line.

The Douglas team will arrive in the city tomorrow morning. It is reported that their line-up will be changed from the line-up of the first Bisbee-Douglas game.

The two teams will be entertained Thursday evening by the Junior class of the Bisbee high school.

**UNIVERSITY OF ARIZONA**  
Geological Trip.  
Prof. Tolman, with four seniors mining engineering, is making a two-weeks' trip over the Rincon mountains for practical work in geological mapping. The trip is part of the required work of the course. The party goes about 20 miles to Agua Caliente in a mountain wagon and then packs across the mountains. The students of this party are Bone of Phoenix, Flanagan of Los Angeles, Lusk and Nahlhara of Tucson.

**University's Exhibit for Arizona Fair.**  
An entire carload of agricultural and other exhibits from the University of Arizona and its affiliated agricultural experiment station was sent to Phoenix for the Arizona fair.

The wireless telegraph instruments and astronomical illuminated photographs, which were such an interesting exhibit at the Pima county fair, were also on exhibition at the territorial fair.

Professor W. L. Fowler had charge of the general university exhibit, as chairman of the University Committee on Exhibits, but his duties as judge of stock for the management of the fair place instructor B. A. Snow in active supervision. L. M. D. LaTourrette of Phoenix, an upper-class student in the university, will assist Mr. Snow. Mr. E. D. Trout directs the exhibit of the experiment station.

Students in the civil engineering department of the university have formed a civil engineering club with R. C. Young of Indianapolis as president; W. E. Morphy, Jr., of Tucson, vice president; O. G. Gerinier of Chicago, secretary; C. E. Scherer of Twin Butte, treasurer. The club will hear addresses from eminent engineers, will visit engineering operations of importance, and will seek in other ways to come into touch with their profession. Professor Waterbury, head of the department of civil engineering, will co-operate with the club in all its work.

## We Offer You the Tenderest Morsels of the Sea

As a delicacy, no other food compares with the oyster.  
Easily cooked in a dozen palatable ways—or served raw.  
So inexpensive that any table can afford them three times a day.  
So easily digestible that even dyspeptics can enjoy them.

The famous Seal Ship Oysters come to us direct from the seaboard by fast express—under seal, on ice.

## THE Y. M. C. A. AND MILITARY

Arrangements Made for a Series of Winter Sports

As a result of several informal conferences held by Secretary Davis, of the Y. M. C. A., with officers of the cavalry stationed at Fort Huachuca, a series of contests in winter sports may be arranged between Y. M. C. A. teams and army teams.

Mr. Davis has taken the matter up by letter with officers at the post. The soldiers have bowling teams and basketball teams and it is probable that contests in these games will be arranged. Appreciating the fact that the soldiers have little opportunity for recreation at the post, it is said that the officers favor a closer relation in sports between the soldiers and Bisbee.

The troops have a fine bowling alley at the army post and have formed a number of teams. The team that will play the Bisbee "Y," if a game is arranged will probably be the pick of these teams. The matter of arranging a series of basketball games for the late winter is also under consideration.

**ROUT OF THE GANGSTERS**  
(New York Evening Post)  
No one can read the returns from Cincinnati, Philadelphia and Cleveland, to say nothing of New York, without a feeling of satisfaction and even of jubilation. The awakening of our American cities is coming on apace. Who would have thought a couple of years ago that, without any particular revolutions of machine wrong doing, or any specially sensational events, Philadelphia and Cincinnati would rise up and drive out the hoodlums and gangsters that have been fattening upon those cities and disgracing them before the world.

**THINGS MEN LOVE TO HEAR**  
"Mother is coming, George, to stay all winter with us."  
"I do wish you ever knew enough to hang up the duds you take off."  
"Now don't go down town this morning without leaving me 45 to run the house on."  
"My dressmaker's bill is due today and she needs the money."  
"I saw a lovely coat this morning and the price was only \$61.99."  
"The lawn needs weeding, dear."

**DR. WU'S DISCOVERY**  
(Columbus Journal)  
Like some of our own great statesmen, Dr. Wu Ting Fang seems to have the faculty of suddenly discovering that his sympathies have always lain with the side that happens to be on top.

**TEMPEST AND SUNSHINE**  
Woods and Chalker present "Tempest and Sunshine," a dramatization of Mary J. Holmes' novel to be at the Orpheum on Monday, Dec. 4. Lem B. Parker, who dramatized this famous book has succeeded in constructing the strongest play which has been offered at popular prices for some time and one which will prove doubly fascinating to the public.

"Tempest and Sunshine" grows doubly interesting at each successive act and the climax at the end is nothing short of a triumph in modern stage craft.

By those who are conversant with the history relating to the existing conditions at the time and in the place.

**DISTRIBUTE FIRE STATIONS**  
Recently Chief Nemick, of the fire department, conceived the idea of establishing auxiliary fire stations at different points in Douglas, the object being to supply each of the stations with fire fighting apparatus which could be used by persons already on the ground before the arrival of the regular department.

In accordance with this plan two stations were established, one at the corner of Seventeenth and D, known as No. 2, and one at the corner of Third and D, known as No. 3.

The wisdom of having substations was demonstrated this morning about 8:30 when fire broke out in a five room frame house at 734 Sixteenth street, occupied by A. H. Prothro. The neighbors living in the vicinity got out the apparatus from the No. 2 station and had the fire out before the regular department arrived on the scene.

The house was damaged to the extent of \$150, which it is said is covered by insurance. The fire was caused by a defective chimney. The property is owned by Charles R. Bodenhamer.

**INSOMNIA CONQUERED**  
(New York Sun)  
Mr. Calbraith P. Rodgers, the aviator, attributes the fall of his airplane, in which he sustained serious injuries to the fact that he was overcome by "ethered apoplexy, or aerial somnolence," and lost control of his machine. Mr. Rodgers says that the somnolent feeling "creeps irresistibly upon the senses of an aviator, lulling him into dreamy unconsciousness." Apparently a genuine remedy for insomnia has been found at last. Sufferers have only to enter an aviation school learn how to operate an aeroplane and ascend to a height where the beating of the locomotive and the larking of dogs no longer strike upon the eardrums and rasp the nerves. When the Wright brothers have perfected their self-balancing floatabout sleep will be within the reach of all.

**Shy On Bones**  
First Walter—This paper says the wrist contains eight bones, the palm five and the fingers fourteen.  
Second Walter—Well I never has found five bones in my palm.—Yonkers Statesman.

There is little danger from a cold or from an attack of the grip, except when followed by pneumonia, and this never happens when Chamberlain's Cough Remedy is used. This remedy has won its great reputation and extensive sale by its remarkable cures of colds and grip and can be relied upon with implicit confidence. For sale by all dealers.

where the scenes of "TEMPEST AND SUNSHINE" are laid, it is said that they are remarkably true to life. The company interpreting this splendid play is one of exceptional merit, headed by Miss Quina Marion and Billie Loe.

The management has spared no expense to provide their stars with a supporting cast as strong as the best, and the result is eminently satisfactory, both from a financial and artistic standpoint. The story is wholesome and true, and the gamut of human emotions are run during the progress of the play. It entrances, thrills, delights and edifies. It has the fancies of fiction founded on facts, and gives even the frivolous something to think about after they leave the theater.

**FOUND A GOLD MINE BUT ALMOST TOO LATE IN LIFE**  
The Phoenix Republican has received a sack of the ore samples accompanied by a letter from the senders, J. P. Noel and P. A. Noel, an elderly man and wife who are in partnership in the mining business. They write from their camp on Nevada mountains in the Harqua Hala range, on the south side of Culligan's valley, though their post office address is Wenden. Mr. and Mrs. Noel say that after enduring many hardships in their declining years, they have at last found what they believe to be the ear marks of a big mine. But they are old and sick and lack all those things necessary to develop it or to properly market it. They seek help in doing this and are willing to make or accept almost any kind of a fair proposition. Their letter is rather a pathetic one but it tells their story perhaps better than it can be told by another who has not been there, both as to the nature of their mine and their reasons for selling. The ore samples may be seen at the Republican office in Bisbee by any one interested. The letter of Mr. and Mrs. Noel follows:

We are going to send you a small sample of our ore from a splendid gold bearing ledge we have opened up in our assessment work. We have run a tunnel that strikes the lead at 65 feet depth. The ledge is three foot wide free milling ore and is a genuine fissure vein. It is a mine we believe that will develop ore bodies that may be profitably worked for many years. The ledge pitches into a big mountain and the values have improved with depth.

But we are old and sick and broke and have got to sell or let some one have it on shares to put up a mill and work it. There is a good spring of living water on the ledge and a stamp mill and plenty of good ore ready for stamping in different places. Fifteen or twenty men could be put to work taking out high grade ore in different places on the claims.

A wagon road could be built to the mine on a twelve per cent grade for the hauling of a machine every indication of having tremendous bodies of rich gold ore at greater depth. The white talc sent is from the foot wall, the red material is the ledge matter and the copper ore runs alongside of the red ledge and also horns free. We have had no assays, but it all bears good.

Alleging that the Clara Consolidated Mining company, which has been operating at Swansea, Yuma county, had committed an act of bankruptcy by paying some of its employees at the rate of fifty cents on the dollar, three men holding labor claims against the company filed a petition for bankruptcy against the company in the district court in Tucson.

Emil Bell, Frank Kelton and Edward Florence, who hold labor claims for \$1,500 are the complainants.

## GOLF PLAY RESULTS ON BISBEE LINKS

In the semi-finals of the annual golf championship yesterday, says the Douglas International, C. Smith defeated Fortin and French lost to Stuppi.

In the morning round Smith had Fortin but one down, and it looked as if this might be a close match, but in the first round of the afternoon play Smith had a string of eight fours and a five, a thirty seven, which proved too much for Fortin as it brought him in at the end of that round six down and nine to par. The match was finished on the thirtieth hole, Fortin seven down and six to go. In the Stuppi-French match, Stuppi was three up in the morning and in the afternoon, with a seventy-nine, the low score of the day, against an eighty-three, added another four to his lead.

This places Stuppi and Smith in the finals, the same two having played for the championship three years ago, Smith at that time playing left handed.

T. M. Smith defeated Sexton and Speed won by default in the consolation flight, leaving Smith and Speed to play the finals.

D. Hooper won the first class cup defeating Landis with an eighty-seven against an eighty-eight, but being four up. W. L. Smith won the consolation cup in this class by defeating Taylor. Taylor's clubs, by the way, are for sale.

In the second class Potter, making his record score, a ninety-six, won the cup, from Bishop.

The surprise cup was won on the nineteenth hole, by Halliburton against Laughlin.

Smith and Stuppi will play for the final honor on Thursday, which will be the fourth anniversary of the club.

**SWITZERLAND UNEASY**  
And now Switzerland is said to fear Italian aggression. This thieving game, under which no defenseless people whose homes and their sterling feels entirely safe, should be stopped. It has already been carried quite so far.

No wonder that the little mountain republic of Switzerland, nestled so near the Italian frontier and with some of its provinces using the Italian tongue, should fear aggression so at a time when the prevailing international code of morals seemingly justifies any nation that is unscrupulous enough to plunder a weaker power and strong enough to hang on to it in getting all it can before an international tribunal of justice is substituted for the lex talionis of the dark ages.

The Swiss canton of Ticino is on the Italian side of the Alps. In the absence of an international code of honor that might serve as a protection to the weaker nation, nothing short of some international authority at all set up on the ground of justice and command respect for it will put an end to this degrading brigandage among the nations.

**PITIFUL APPEAL OF AGED COUPLE**  
Found a Gold Mine But Almost Too Late in Life

The Phoenix Republican has received a sack of the ore samples accompanied by a letter from the senders, J. P. Noel and P. A. Noel, an elderly man and wife who are in partnership in the mining business. They write from their camp on Nevada mountains in the Harqua Hala range, on the south side of Culligan's valley, though their post office address is Wenden. Mr. and Mrs. Noel say that after enduring many hardships in their declining years, they have at last found what they believe to be the ear marks of a big mine. But they are old and sick and lack all those things necessary to develop it or to properly market it. They seek help in doing this and are willing to make or accept almost any kind of a fair proposition. Their letter is rather a pathetic one but it tells their story perhaps better than it can be told by another who has not been there, both as to the nature of their mine and their reasons for selling. The ore samples may be seen at the Republican office in Bisbee by any one interested. The letter of Mr. and Mrs. Noel follows:

We are going to send you a small sample of our ore from a splendid gold bearing ledge we have opened up in our assessment work. We have run a tunnel that strikes the lead at 65 feet depth. The ledge is three foot wide free milling ore and is a genuine fissure vein. It is a mine we believe that will develop ore bodies that may be profitably worked for many years. The ledge pitches into a big mountain and the values have improved with depth.

But we are old and sick and broke and have got to sell or let some one have it on shares to put up a mill and work it. There is a good spring of living water on the ledge and a stamp mill and plenty of good ore ready for stamping in different places. Fifteen or twenty men could be put to work taking out high grade ore in different places on the claims.

A wagon road could be built to the mine on a twelve per cent grade for the hauling of a machine every indication of having tremendous bodies of rich gold ore at greater depth. The white talc sent is from the foot wall, the red material is the ledge matter and the copper ore runs alongside of the red ledge and also horns free. We have had no assays, but it all bears good.

Alleging that the Clara Consolidated Mining company, which has been operating at Swansea, Yuma county, had committed an act of bankruptcy by paying some of its employees at the rate of fifty cents on the dollar, three men holding labor claims against the company filed a petition for bankruptcy against the company in the district court in Tucson.

Emil Bell, Frank Kelton and Edward Florence, who hold labor claims for \$1,500 are the complainants.

For a time the Clara Consolidated was operated on a large scale and was one of the most promising claims in the Swansea district. Operations were suspended recently

**Brief Local Items**

**Taken to Hospital.**  
Mrs. Wilson, wife of Captain Wilson, of the Salvation Army, was taken to a hospital yesterday for treatment.

**Called to Gleebox.**  
Mrs. F. E. S. and G. A. Bridge, of the Copper Queen medical staff, were called to Gleebox yesterday on professional business.

**Lutheran Services.**  
Lutheran services will be held at the Warren school house Thursday evening at 7:30 o'clock. A cordial invitation is extended to all to attend.

**Infant Daughter Dies.**  
Last evening Gladys Adams Mahan, fourteen months old daughter of Mr. and Mrs. Charles Mahan, died at the home of her parents. Through the kindness of the family, arrangements for the funeral have been completed, and the services will be held from the family residence at Clawson Hill this afternoon at three o'clock. Rev. Fry officiating.

**Personal Mention**

J. N. Gaines was a passenger for Douglas en route from Tombstone last evening.

William Riggs has returned to Bisbee to continue his campaign for supervisor.

Walter Stovall, of Douglas, was in Bisbee yesterday in the interests of the Arizona Oil company.

W. C. Humphreys, well known mining man of Douglas, accompanied by Mrs. Humphreys, spent yesterday in Bisbee.

C. M. Roberts, one of the democratic candidates for state senator, was in the city, starting his Warren district campaign.

Traveling Freight and Passenger Agent E. G. Mountain, of the El Paso and Southwestern, passed through Bisbee last evening on his way to El Paso.

**FIELD TRIALS BEGIN AT LAUREL**

LAUREL, Md., Nov. 28.—The Maryland and District of Columbia's ninth annual field trials began on the premises near here today with an entry list of scores of fine dogs, each one the product of years of careful breeding and training. The meet will continue through the greater part of the week. The principal events on the program are the open, all-age, members' all age and the open derby.

**Very Probable**  
"Are you dining anywhere on Wednesday, Spanglelight?"  
"No, old man, I'm not. Do you?"  
"Then you'll be awfully hungry on Thursday, won't you?"—Tribuna.

and it is said that the manager had gone to Europe to secure funds to continue the work.

The Clara Consolidated was promoted by George Mitchell, who is well known in Douglas. He established the First National bank in this city of which he held the interest to Col. B. A. Packard and Tom Pollock.
